

A 20 % position as Associate Professor II in Archaeology is available at the Department of Archaeology, Conservation and History, University of Oslo. The position is for a period of three years.

The holder of the position is expected to initiate and lead research in archaeometry and environmental archaeology, to supervise master candidates, to assist in developing courses, to participate in teaching (including field courses and laboratory exercises) and in exam setting and evaluation at all levels, and to carry out administrative duties in accordance with the needs of the Department.

Requirements

- PhD or equivalent academic qualifications with a specialization within archaeometry or environmental archaeology
- Pedagogical skills and qualifications in leadership and administration
- Personal suitability and motivation for the position

The following qualifications will count in the assessment of the applicants:

- Academic qualifications and academic production in archaeometry and/or environmental archaeology, with emphasis on works published within the last 5 years. Originality and innovative thinking are preferred to quantity
- The capacity to integrate methods and results from science with broader archaeological interpretation
- Practical experience in archaeometry/environmental archaeology
- International peer-reviewed publications
- Potential to contribute to the long-term development of the academic and research environment at the department
- Pedagogical qualifications and disposition to inspire students
- Interest, ability and experience in management and administration
- Collaborative skills and willingness to initiate joint projects
- Experience with collaboration across established academic environments and ability to build international networks
- Communication and public outreach skills
- Command of a Scandinavian language

In the assessment of the qualified candidates all criteria listed above will be explicitly addressed and assessed. Academic quality, development potential and scope will be prioritized in this order.

We offer

- Salary level 57-64 (468 100-532 700 NOK per year, depending on qualifications)
- A professionally stimulating working environment
- Pension agreement with Norwegian Public Service Pension Fund
- Attractive welfare benefits

Submissions

Applicants must submit the following attachments with the electronic application form, preferably in pdf format:

- Application letter describing qualifications
- Curriculum Vitae
- List of published and unpublished works
- Description of one or more research projects which may be relevant for the Department
- Proposed topics for MA theses (areas in which you feel qualified to supervise MA theses)

Applicants are asked to describe and exemplify the entire range of qualifications and criteria mentioned in the announcement of the post.

Selection procedure

As first step a Selection Panel will invite a limited set of candidates to submit a portfolio of educational certificates and academic works (up to 10 publications, which should not exceed 500 pages in total) for further assessment. Applicants who are invited to submit academic works are asked to select three works, published within the last five years, to be considered as more relevant for the position. In larger volumes (monographs), applicants may specify the relevant pages. Applicants are also asked to document other qualifications (public outreach, teaching and supervision, leadership and administration). A Selection Board will then assess the selected works and submit its report containing a list of the shortlisted applicants.

Finally, an interview and a trial lecture will be part of the assessment process.

Within his/her normal duties, and in accordance with his/her academic competence, the person appointed may also be asked to work outside his/her department. The appointment is subject to changes to the subject area and tasks that may be determined by the employer.
