## Depth levels explanation

### 0 Out of Scope.

The library does not intentionally collect materials in any format for this subject.

### 1 Minimal Information Level

Collections that support minimal inquiries about this subject.

### 2 Basic Information Level

Collections that serve to introduce and define a subject, to indicate the varieties of information available elsewhere, and to support the needs of general library users through the first two years of college instruction.

### 3 Study or Instructional Support Level

Collections that provide information about a subject in a systematic way but at a level of less than research intensity, and support the needs of general library users through college and beginning graduate instruction.

### 4 Research Level

A collection that contains the primary published source materials required for doctoral study and independent research.

### 5 Comprehensive Level

A collection in a precisely defined field of knowledge that strives to be exhaustive, as far as is reasonably possible (i.e., a "special collection") in all applicable languages
