Application received:

20.05.2014

Oslo,

19.12.2014

Call for proposals: FRIHUMSAM, application deadline 21 May 2014
Project: Family language policy in multilingual transcultural families
Project No: 240725
Project Owner: Institutt for lingvistiske og nordiske studier,
UNIVERSITETET I OSLO
Project Administrator: Mari Camilla Risdal Otnes
Project Manager: Elizabeth Lanza

Dear Madam,

Your application for funding for the above project was reviewed by the Expert Committee on Humanities and Social Sciences at its meeting on 20 and 21 November 2014. The Research Council of Norway is pleased to inform you that your request for funding has been approved contingent upon the revision of the grant application as stipulated below. The deadline for submission of the revised grant application and project description is **02.02.2015**.

Revising the grant application on "My RCN Web"

Find the copy of the grant application marked with the word "Revised" in the column for short names under the menu tab "Applications in eSoknad" on [My RCN web](#), and make the relevant changes.

The content of the revised grant application will be used as the basis for the contract between the Research Council and the Project Owner. Read more about the "General Terms and Conditions for R&D Projects" at [the Research Council's website](#).

Planned allocation of funds and what to update in the grant application

The planned allocation of funds from the Research Council is NOK 8,029 million. The amount of funding sought must be updated to correspond to the amount approved allocated for the project. The amount may be changed depending on the update of the application – please see the sections below.

Progress plan and project period

In case that depreciation costs are included, the calculation of the costs must be specified in the application form, and the costs should be entered in the row for “Equipment” in the application form.

Collaboration agreements

The Project Owner is responsible for ensuring that written agreements are signed between all the relevant partners under obligation to provide professional and/or financial resources for the implementation of the project. Information relating to all such partners is to be entered in the application form. Other partners should not be entered in the application form. Suggestions regarding elements to include in an agreement may be found at [the Research Council’s website](#). We encourage all recipients of grant allocations to start the process of drawing up collaboration agreements immediately.

A copy of all signed collaboration agreements is to be attached to the contract when this is returned to the Research Council. The deadline for returning the contract documents is three months. The contract will not enter into force until the collaboration agreements are in place. Read more about the “General Terms and Conditions for R&D Projects” on [the Research Council’s website](#).

Public access to information

Please note that information about the project will be published in the Research Council’s project database once the revised grant application has been approved. See [the Research Council’s website](#).

For grant applications that are to be revised there are two fields for title and two for popular science presentation, one for Norwegian and one for English. The information must be provided in both languages.

It is important to ensure that both the project summary and the popular science presentation are written in a way that will be understandable to a public that may not have the relevant scientific background. Make sure you do not include any confidential information from the project in these texts.

Contract

The Research Council will send out signed contract documents after we have received a revised grant application that incorporates the stipulations set out above.

Scientific assessment of the grant application

Grant applications submitted under FRIHUMSAM were assessed in one of 13 referee panels. Your grant application was assessed by FRIHUMSAM Panel 4. A list of the members of the referee panel may be found at <http://www.forskningsradet.no/en/Referees/1184159007067>

For your information, we have enclosed the assessment of the panel that reviewed your grant application. It is being forwarded here to provide you with scientific feedback, and does not comprise the grounds for the funding decision.

All questions should be addressed to the relevant case officer at the Research Council. Applicants should not contact members of the Expert Committee or any referees regarding questions about the scientific assessment of the grant application.

Project number

Please be sure to include the following reference number 240725 on all enquiries to the Research Council concerning this project.

Congratulations on the award of your grant, and good luck with your project!

Yours sincerely,

The Research Council of Norway

Jon Holm
Director
Division for Science

Wiebke Ramm
Senior Executive Officer
Division for Science
