

◆ **Plan publications**

We plan two publications: one book containing language-specific studies and one of a more theoretical nature. We plan to publish one volume in 2013 and one in 2014. The language-specific volume will contain articles on information structure and syntax, either monolingual studies, or comparative studies of two or more languages. We are (are we?) thinking of a descriptive volume.

In this short session, we would like to get an overview of who might want to contribute to these volumes, and perhaps also opinions about the best publication channels.
